Because of the barbarous bombing, arson, and pillage of the enemy, a large quantity of provisions was lost. In addition, they will instruct subordinate county people's committees to limit to a minimum the manufacture and sale of such items as Korean bread and wheat flour on the open market by controlling through permits the range of sale and by liaison with the public security branch; see that illegal sales without permission are not made.
2. Intelligence acts shall be placed into operation to open an aggressive struggle against illicit brewing and other similar use of provisions for profiteering. No compromise shall be permitted. Waste of food from superstitious practices shall be likewise strictly controlled.
3. Inspection of all organizations, regardless of whether a national, political, social, or communal organization, and individuals concerned in the distribution of food shall be enforced in connection with food administration organs to eliminate violations of food distribution regulations for personal gain.
